Date Consultation Completed	November 2024
Date adopted by	<b>26th November 2024- Curriculum Committee</b>

Under the Public Sector Equality Duty, Manchester Hospital School has due regard to the need to eliminate discrimination, harassment and victimisation and any other conduct prohibited by the Equality Act 2010; to advance equality of opportunity between those who share a relevant protected characteristic and those who do not share it and to foster good relations across all

protected characteristics. Manchester Hospital School will take into account equality considerations when policies are being developed, adopted and implemented. Manchester Hospital School serves the needs of a very large and diverse range of children, young people and their families at times when they are extremely vulnerable. Our core purpose as a school is to uphold the child's right to Education and our policies and procedures are necessary to keep staff and pupils safe. We acknowledge that our students are often living with a range of very complex medical conditions including mental ill health and therefore we keep the needs of the pupil at the heart of all decisions. We will, therefore, work within the parameters of all statutory policies whilst seeking to understand and support the pupil's long term education and health needs.

## Contextual Statement

Manchester Hospital School is based across various settings, each with its own context. Our teaching takes place at the Leo Kelly School, at Galaxy House, in the Royal Manchester Children's Hospital, the Christie, North Manchester General Hospital, we also teach in the home. All children who are absent from their schooling have the right to access the statutory curriculum, and we have the duty to ensure they can access it. This statutory curriculum for primary age pupils is Relationships and Health Education (RHE), and for secondary age pupils it is Relationships, Sex and Health Education (RSHE). This means that the teaching of RSHE will vary according to these differing contexts, in terms of quantity, content, and styles of teaching, but is nevertheless taught across the whole school.

Manchester Hospital School serves the needs of a very large and diverse range of children, young people and their families at times when they are extremely vulnerable. Our core purpose as a school is to uphold young people's right to Education and our policies and procedures are necessary to keep staff and pupils safe.

We acknowledge that pupils are often living with a range of very complex medical conditions including mental ill health and therefore we keep the needs of the pupil at the heart of all decisions. We will, therefore, work within the parameters of all statutory policies whilst seeking to understand and support their long term education and health needs.

Manchester Hospital School is an inclusive school where the focus is on the wellbeing and progress of every pupil and where all members of the community are of equal worth. The school recognises, respects and values differences. It strives to remove barriers and disadvantages that people may face, in relation to disability including continuing economic disadvantage, health conditions, ethnicity, religion, belief or faith, sex, gender identity and sexual orientation.

Diversity is respected and celebrated by all those who learn, teach and visit here.

We will work towards providing the best opportunities and outcomes for families, whilst continuing to work with our public partners to connect students to those opportunities.

Our pupils will be supported to have the best start in life and equal access to high quality education, continuing to narrow educational gaps between the UK average and Manchester and between different identity groups in the City's schools.

We will use our growing knowledge of the differing health trends across Manchester's communities of identity and tailor services to meet those needs. We will work to prevent personal circumstances such as homelessness or economic poverty from being a barrier to opportunities, and provide support for those in the greatest need.

## 1. Aims

We believe that RSHE is vital for the personal, social and emotional development of our pupils. It equips children and young people with the information, skills and values they need to have safe, respectful and enjoyable relationships and empowers them to take responsibility for their sexual health and well-being. Manchester Hospital School believes that all pupils have a right to holistic, inclusive and needs-led RSHE. We believe that through providing high quality RSHE, we are upholding the ethos and values of our school and its commitment to equality and celebration of difference.

The aims of relationship and sex education (RSHE) at our school are to:

- Provide a framework in which sensitive discussions can take place
- Prepare pupils for puberty, and give them an understanding of sexual development and the importance of health and hygiene
- Help pupils develop feelings of self-respect, confidence and empathy
- Create a positive, honest, and open culture around issues of sexuality and relationships
- Teach pupils appropriate vocabulary to describe themselves and their bodies, ensuring LGBTQ+ inclusion
- Teach pupils about the importance of care and consideration for others with whom they share the same learning environment
- Enable pupils to learn about sex and relationships in an environment of trust, such that all pupils can ask &/or answer questions without fear of ridicule.
- Explore how stereotypes, in particular stereotypes based on sex, gender, race, religion, sexual orientation or disability, can cause damage (e.g. how they might normalise non-consensual behaviour or encourage prejudice).
- Teach pupils that others' families, either in school or in the wider world, sometimes look different from their family and to ensure they are treated with care and consideration.

These aims chime with, and are informed by, the school's ethos and values we promote at Manchester Hospital School. <https://www.manchestershospitalschool.co.uk/our-values/> and our curriculum principles of:

**Aspiration:** We encourage our pupils to aspire to achieve their potential.

**Resilience:** We develop pupils' ability to overcome challenges.

**Equality and diversity:** We build a culture of empathy and respect.

**Feeling safe:** We create an environment where pupils feel able to talk to adults and share worries or concerns.

Pupils at MHS will be encouraged to develop their knowledge and understanding of the RSHE curriculum with integrity and trust at its heart, such that they will be able to do so in a fully safe and supportive environment. They will be encouraged to be kind to each other and to themselves, and to develop a sense of fairness and justice.

## 2. Statutory requirements

‘Today’s children and young people are growing up in an increasingly complex world and living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks. In this environment, children and young people need to know how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way.’ - DFE 2019

Under [section 3.6 of the National Curriculum](#), Relationships and Sex Education is compulsory from year 7 onwards.

As a maintained school we must provide relationships education to all pupils as per section 34 of the [Children and Social work act 2017](#).

In teaching RSHE, we must have regard to [guidance](#) issued by the secretary of state as outlined in section 403 of the [Education Act 1996](#).

At Manchester Hospital School, we teach RSHE as set out in this policy.

## 3. Policy development

This policy has been developed in consultation with staff, pupils and parents. The consultation and policy development process involved the following steps:

1. Review - a working group pulled together all relevant information including relevant national and local guidance
2. Staff consultation - all school staff were given the opportunity to consider the policy and make suggestions for amendment and/or additions each time the policy is reviewed.

3. Parent/stakeholder consultation - parents and any interested parties were invited to attend a meeting about the policy, at which they had the opportunity to offer suggested amendments, &/or seek any clarification.
4. Pupil consultation - Pupil voice is collected to inform planning and our yearly overview shared with students to review at this time.
5. The policy was shared with and reviewed by Manchester Healthy Schools
6. Ratification - the policy was presented to governors, who made suggestions for amendment and/or additions, before final ratification

## 4. Definition

Relationships, Sex and Health Education (RSHE) - is about the physical, emotional, social and cultural development of pupils, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity.

We define relationships education as learning about the physical, social, legal and emotional aspects of human relationships including friendships, intimate, sexual and committed relationships and family life.

We define sex education as learning about the physical, social, legal and emotional aspects of human sexuality and behaviour, including human reproduction. This includes conception and contraception, safer sex, sexually transmitted infections and sexual health.

We believe that Relationships and Sex Education is best approached in an integrated way and using a gender equity and human rights framework.

We will take care to highlight lessons that contain what we define as sex education so that we can respect the wishes of parents who have withdrawn their children from this content. At the same time, we will seek to nurture pupil's curiosity about the world around them, supporting their development and their respect for themselves and each other.

RSHE involves a combination of sharing information and exploring issues and values.

RSHE is *not* about the promotion of sexual activity.

## 5. Curriculum

Our curriculum is set out as per Appendix 1 but we may need to adapt it as and when necessary.

We have developed the curriculum in consultation with parents, pupils and staff, taking into account the needs and feelings of pupils.

### Answering pupil questions

RSHE explores a range of issues that may provoke questions from pupils. We view questions as a positive sign that pupils are engaged with what is being taught and feel able to express natural curiosities about themselves, their bodies and relationships with others.

At Leo Kelly and Galaxy House, as much as possible, where a question is relevant to the whole class, we will answer it to the whole group. There may occasionally be the need to deal with a question outside of the classroom if it is not suitable for the entire class.

Questions will always be answered in an age and developmentally appropriate way and take into account whether a parent/carer has requested their child to be removed from sex education lessons.

School staff will not be expected to answer personal questions about themselves or to ask direct personal questions of their pupils that could make either party vulnerable.

We believe that an open approach to answering questions prevents pupils from learning inaccurate or harmful information online or from peers and older pupils. We believe exploring issues with the whole class helps to reduce the stigma and shame that can surround some of the issues explored in RSHE. Importantly, we believe that children are better protected from harm and abuse when they are able to discuss issues openly with trained professionals and in a safe environment.

For more information about our curriculum, see our curriculum map in Appendix 1.

## 6. Teaching of RSHE

RSHE is taught within the personal, social, and health education (PSHE) curriculum. Biological aspects of RSHE are taught within the science curriculum.

As part of the curriculum pupils receive stand-alone sex education sessions, these are sometimes supported by Manchester Healthy Schools, I- Matter and external workshop providers and our school nurse.

Across all Key Stages, pupils will be supported with developing the following skills:

- Communication, including how to manage changing relationships and emotions
- Recognising and assessing potential risks
- Assertiveness
- Seeking help and support when required
- Informed decision-making
- Self-respect and empathy for others
- Recognising and maximising a healthy lifestyle
- Managing conflict
- Discussion and group work

These skills are taught within the context of family life, where a family refers to and includes all different family types, such as: nuclear, single-parent, extended, same sex, reconstituted (step), adopted, foster, and cohabiting.

At Leo Kelly School and Galaxy House pupils are taught discrete (separate) Personal, Social and Health Education (PSHE) lessons, in their year group classes, for one hour per week, with their form tutor. RSHE is taught within the PSHE curriculum. RSHE is usually taught in the Spring term, giving the students' form tutor the chance to get to know her/his tutees, and so build up the trust and openness which lend themselves to much more effective learning in RSHE. This also reflects what takes place in many secondary schools across the North West. The content of the RSHE curriculum can be seen in Appendix 1.

At the hospital sites and Galaxy House, for secondary age pupils, the PSHE/RSHE curriculum is taught within our wider curriculum offer which includes aspects of RSHE for our longer stay pupils. Teachers engage the pupils in RSHE as and when appropriate, and only when authorised by the parent(s)/carer(s). Teaching tends to be on a 1:1 basis, enabling the pupils to genuinely explore this fundamentally important part of the secondary curriculum.

For those aged 5-11, RSHE is taught by a teacher in lessons as part of their offer, ensuring that the longer stay pupils do not miss out on this area of their education. We believe it is vital that young people start to learn about positive, healthy relationships with other people, and begin to explore what constitutes such relationships, as well as the corollary, what constitutes unhealthy relationships.

## 7. Roles and responsibilities

### 7.1 The governing body

The governing body ratify the RSHE policy and hold the headteacher to account for its implementation.

### 7.2 The headteacher

The headteacher is responsible for ensuring that RSHE is taught consistently across the school, and for managing requests to withdraw pupils from non-statutory/non-science components of Sex Education.

### 7.3 Staff

Staff are responsible for:

- Teaching RSHE in a sensitive way
- Modelling positive attitudes to RSHE
- Monitoring student progress
- Responding to the needs of individual pupils

*Note the point above in 7.2, that parents have no right to withdraw their children from statutory RSHE*

Staff do not have the right to opt out of teaching RSHE. Staff who have concerns about teaching RSHE are encouraged to discuss this with the headteacher.

The Lead Practitioner for THRIVE has the responsibility for developing this policy, the curriculum and for the teaching of RSHE within the students' PSHE curriculum across all sites.

### 7.4 Pupils

Pupils are expected to engage fully in RSHE and, when discussing issues related to RSHE, treat others with respect and sensitivity.

## 8. The right to withdraw (Primary)

Parents have the right to withdraw their children from the non-statutory/non-science components of Sex Education. We do however believe in its importance as part of their children's education, and will encourage parents to enable their children to have access to the whole curriculum. We will, however, respect their decision to withdraw their children from the non-statutory/non-science components of Sex Education.

Requests for withdrawal should be put in writing and addressed to the headteacher. A copy of withdrawal requests will be placed in the pupil's educational record. The headteacher, or their representative, will discuss the request with parents and take appropriate action.

## 9. Training

If requested, staff will be able to access training in the delivery of RSHE and leads are encouraged to attend network meetings provided by Manchester Healthy Schools.

Manchester Healthy Schools also provide comprehensive 'How to' videos to support teachers in the delivery of certain RSHE topics which have been shared with all staff.

It is important that all teachers have access to resources to become familiar with using inclusive language and rehearse strategies for dealing with all forms of bullying, including homophobic, biphobic and transphobic bullying.

Periodically, the headteacher will also invite visitors from outside the school, such as school nurses or sexual health professionals, to provide support and training to staff teaching RSHE.

## 10. Monitoring arrangements

The teaching of RSHE is monitored by the Lead Practitioner for THRIVE and site leads through:

- planning scrutinies,
- learning walks
- classroom observations
- departmental meetings and minutes
- assessment of the implementation of CPD
- Pupil representative semi-structured conversations
- Pupil assessment activities

Pupils' development in RSHE is monitored by class teachers as part of our internal assessment systems.

This policy will be reviewed annually to ensure that it is in line with current Government guidance and legislation and to ensure that our RSHE programme continues to meet the needs of our pupils. At every review, the policy will be approved by the governing body including the headteacher.
